

In support of:

capaCITY at Local Renewables

Join a great STUDY TOUR!

Learn more about innovative energy solutions in buildings & districts.

Visit [Freiburg and the Solar region \(Germany\)](#)

When? 23/ 24 October 2013. 1.5 days power-packed with energy and ideas.

What? We offer a great programme – introducing local policy, cool strategies, exemplary approaches, ideas, inspiration – for you!

Who? Local political decision-makers keen to learn about municipal energy policy.
Technical staff working on an Local Action Plan

Why? Is your local government just starting with its Action Plan?
Need ideas for measures? Want to become more ambitious? Solve problems?
Learn from sustainable energy experts, exchange with your peers!

This study tour takes place in the framework of the Covenant capaCITY project, co-funded by the Intelligent Energy Europe (IEE) programme.

PROGRAMME – GROUP A

Day 1, 23 October 2013

Tour leader: ICLEI Europe

Carsten Rothballer (morning session): +49 157 83643750

Duru Ipek Kunt (afternoon session): +49 176 63401165

08:45	<p>Participants gather at venue: Neue Rathaus, Neuer Ratsaal Rathausplatz 2-4, 79098 Freiburg/Breisgau</p>
9:00 – 10:30	<p><u>Introduction to Freiburg climate policy</u> Mr. Klaus Hoppe, Environmental Department, City of Freiburg will give an introduction on Freiburg's climate strategy and policy. He will offer practical advice on municipal options for renewable energy integration into Local Energy Action Plans - with a specific focus on sustainable districts and buildings.</p>
10:30 – 11:00	<p>Coffee Break</p>
11:15	<p>Tram ride to Vauban – experience the Freiburg public transport system on the way to a sustainable district (lifestyle and local mobility service) Take Tram line 3 in direction “Vauban” – enter at stop “Bertoldsbrunnen” Exit tram at stop “Paula Modersohn Platz”</p>
11:45 – 14:00	<p>Vauban sustainable model district: a green district with low energy buildings</p> <ul style="list-style-type: none"> • Multi-family housing: low energy and passive houses – planning a whole green district • Offices and businesses close by – Solar-Schiff, a business model linked to a green urban planning concept • Generating district heating and electricity - a cogeneration power plant running on woodchips (local resources for local use) • Building technology options <p>New neighborhood planned for 5,000 inhabitants 4 km to the south of the town center in Freiburg. It was built as "a sustainable model district" on the site of a former French military base, and incorporates interesting technological, social and environmental aspects.</p>
14:00 – 15:00	<p>Lunch in Vauban Süden Restaurant Alfred-Döblin-Platz 1 79100 Freiburg im Breisgau 0761 45687161</p>
15:00	<p>Bus ride to Rieselfeld</p>

15:30 – 17:00	<p>Walking tour through the Rieselfeld residential district</p> <ul style="list-style-type: none"> • This is Baden-Württemberg State’s largest neighbourhood project, a model of ecological housing for 11.000 people. Get ideas for a sustainable lifestyle! • All residences are built as low-energy buildings. The use of renewable energy and district heating are part of a far-sighted energy concept, with green spaces making living attractive. • Interconnected mobility concepts: pedestrian & cycling areas, bicycle parking, tram and bus connections, car “no-go” zones.
17:00	<p>Participants step into bus – return to hotel</p>
18:30	<p>Social dinner (only for the participants who registered for social dinner):</p> <p>Stiftungsweingut Freiburg <i>Jesuitenschloß 79249 Merzhausen</i> Tel.: 0761-404714</p> <p>Meeting point: Green City Hotel Vauban Take Tram line 3 in direction “Vauban” - Exit tram at stop “Paula-Modersohn-Platz”</p>

Day 2, 24 October 2013

Tour leader: ICLEI Europe

Carsten Rothballer (morning session): +49 157 83643750

8:45	<p>Participants gather at venue:</p> <p>Neue Rathaus Rathausplatz 2-4, 79098 Freiburg/Breisgau</p>
09:00 – 10:00	<p>Mr. Dieter Bootz, ASF GmbH, introduces Freiburg’s waste management and recycling system, with discussion on replicable options by the visiting delegation.</p> <ul style="list-style-type: none"> • The city of Freiburg has an excellent waste policy with interesting programmes and projects. It provides citizens with a waste management system that is both ecologically and economically sustainable though a set of principles, favouring waste prevention, followed by waste recovery, and finally ecological disposal. • Citizens are encouraged, through communication campaigns and financial incentives, to separate waste and to cut down on the waste they generate. Campaign activities include: Freiburg’s Eco-Station, courses and guided tours, a "Garbage Theatre" for elementary school children, competitions and teaching units, such as "Ideas, not Waste" or "Children and the Agenda 21".
10:10 – 10:30	<p>Tram ride to Haslach</p>

In support of:

Take Tram line 3 in direction "Haid" – enter at stop "Bertoldsbrunnen"
Exit tram at stop "Buggingerstraße"

10:30 – 11:00

Buggingerstraße 50 – high-rise multi-family housing to passive house standard

- Germany's first high rise building renovated to passive house standard. It now consumes 78 % less energy than the original building, with minimal rent increases.
- Learn about all stages of the retrofitting process and challenges encountered and solved by different stakeholders.

11:00 – 11:15

Bus ride to Recyclinghof in Carl-Mez-Strasse 50

11:15 – 11:45

Exploring waste collection and recycling, as part of Freiburg's integrated waste management concept.

Site visit

11:45

Bus ride to the city center

18:00

Cocktail reception offered by the City of Freiburg

Neue Rathaus, Historisches Ratsaal

Rathausplatz 2-4, 79098 Freiburg/Breisgau
